

YOU DESERVE TO FEEL BETTER!

If you were limited to one brand of nutritional products to support your family's needs for primary live food enzymes, then the special formulas used in **NZYMES™ Antioxidant Complex** and **NZYMES® GRANULES** makes it the single most important daily dietary supplement available to help you and your family members compensate for the volumes of cooked and processed foods consumed in today's diets. With **NZYMES®** You'll feel the difference, we guarantee it!

TWO PROBLEMS THAT CONTRIBUTE TO POOR HEALTH!

1. THE FOOD ENZYME PROBLEM

The destruction of food enzymes by cooking and processing is perhaps the most significant factor in what is contributing to chronic and degenerative disease in both humans and animals.

Mother nature pre-designed it's live food sources with specific amounts of enzymes within to aid in the process of digestion and to help with the conversion of these live foods into primary metabolic enzymes. When it is supported properly, our body's own metabolic enzymes help to maintain normal cellular functions, cleanse toxins and strengthen the immune system throughout our lifetimes.

BUT, NATURE NEVER PLANNED FOR...

- Heating food above 118 degrees which destroys the enzymes.
- Boiling food in water for 3 minutes which destroys the enzymes.
- Pasteurization of food which destroys the enzymes.
- Baking, frying, broiling, stewing & canning destroys the enzymes.

Eating enzyme-empty foods stimulates the body's immune system with a reverse response and the body reacts with digestive leukocytosis. This reaction occurs when we eat any cooked or processed foods and is measured in the body as an elevation of our white blood cell levels.

Many scientists and health care professionals are concluding that this is an abusive scenario that puts tremendous stress on the body's pancreas, contributing to blood sugar problems such as diabetes and hypoglycemia, as well as the ongoing propagation of chronic degenerative diseases.

2. THE FREE RADICAL PROBLEM

Free radicals are unstable molecules which damage healthy molecules by stealing electrons. Free radicals occur naturally in the body for wide variety of reasons including our normal metabolic functions, disease, heavy exercise, air pollution, smoke, environmental toxins, pesticides, dietary fats, injury, radiation, and many other types of stress.

To compensate, our bodies produce antioxidant enzymes to help cleanse free radicals through our waste. These naturally occurring antioxidant enzyme factors which include Superoxide Dismutase, Catalase, Glutathione Peroxidase and Methionine Reductase are enhanced by the unique **NZYMES®** formula and helps to scavenge harmful free radicals. This is because an additional category of antioxidant enzymes can be found concentrated in sprouted grains like soy and may be used therapeutically. They help to replenish the body's resources when our cellular defenses are weakened by free radical assaults and tissue damage or disease.

WHAT CAN I DO TO HELP?

NZYMES® Antioxidant Complex and **NZYMES® Granules** provide nutritional and antioxidant support for this two-part problem. First, our whole food complex of **Sprouted Soy Protein** and **RiceX™** ricebran provides an important daily source of highly concentrated live food enzymes. Secondly, our powerful antioxidant complex with Vitamins C, E, A and Selenium helps to scavenge the body of dangerous free radicals.

WILL THEY REALLY HELP?

We're so sure that **NZYMES®** will help you that we offer you an **Unconditional 120-Day Money-Back Guarantee**. Read our success stories on the other side and see for yourself what taking **NZYMES®** each day can do for you and your family.

NZYMES ANTIOXIDANT COMPLEX AND GRANULES ARE PERFECT FOR THE WHOLE FAMILY!

Hayfever - Allergies - Cycles - Aging

I have been using the enzyme rich soy-sprout formula in **NZYMES®** for many years with great success! Years ago, I mentioned to the company about my life-long battle with severe hay fever. Because of this, I spent most of my summer months immobilized, in a stupor, due to the allergy medications. In March of that year, I started taking Soy-Sprout blend found in **NZYMES®** on a daily basis in anticipation of the coming of hay fever season.

Now there is another story within this story and it is even more remarkable. My whole life I had never been regular with my monthly cycle. It was rare for me to have two menstrual cycles in a row let alone 3 or 4. As I stated, I started in March and in April I cycled normally, then again in May, then once more in June and it happened again in July, four months in a row! I knew I felt great, but I thought for sure that I must dying because this was so ABNORMAL for me.

I was scared to death, I just knew something was seriously wrong. So, I went to a physician for an examination and he said everything was fine. He had no explanation for my surprising regular cycles, other than maybe I was simply a "late bloomer."

When I called the company back months later I told him my story. They said, "Oh, we forgot to mention that **NZYMES®** can help with menstrual cycles and female problems too!" Well, I have cycled normally every month, like clockwork for the last 10 years and sailed into menopause without a hot flash or mood swing! It is absolutely remarkable.

To make things even better, my hay fever has disappeared. It's obvious to me now that **NZYMES®** have boosted my overall immune system and have help to regulate the cycles of womanhood. Lastly, I must say that I have hardly been touched by the ravages of time during this long period and my friends all comment about how I stay looking so young. I am a strong believer and proponent of using **NZYMES®** because they have not only enhanced the life of my animals, they have enhanced my own health and well being equally.

Bad Back - Difficulty walking - Fatigue

We had first discovered **NZYMES®** when they were still only available for pets, and had been amazed at the results they produced in our dog. So when we found out they had them for human use, we were thrilled.

I had experienced lower back problems for years - no, decades - aggravated by an unfortunate golf swing. Having always enjoyed running, and more recently, distance walking. I found it very frustrating that the back-pain inhibited me from the full benefits of these exercises. When I walked more than 10 minutes, I had to stop to brace myself on a wall or other surface, and stretch out my back so that I could continue with my exercise.

I've been taking the **NZYMES®** for a few months now. I am thrilled to report that the back pain is significantly less, barely noticeable at times. Recently, I enjoyed a full hour of brisk walking, without having to stop once to relieve my back! I have also noticed a significant increase in energy, enabling me to get through the workday without fatigue. It certainly is a pleasure to go back to the activities I once enjoyed, with prospects of further "rejuvenation". We were already grateful for what **NZYMES®** did for our dog Mewuk, now we say, "thank you", for the **NZYMES®** for people too!

Arthritis - Painful Joints - Allergies - Low Energy

I have been taking your **NZYMES™ Antioxidant Complex** for about 9 months and according to my doctor, I am getting better. According to me, I haven't felt so good in a long, long time. It took approximately 60 days before I began noticing a difference. After 90 days, the difference was incredible and my arthritis count was much lower. After a while, I felt so good I stopped taking the **NZYMES™**. It was about 3 1/2 months before I felt lousy again. So I ordered more and in less than month I felt great again.

Considering I have had this painful condition since my early 20's, I want others to know that my knees are in much better shape now and I can attest that **NZYMES™** really WORK!

And, they offer a great alternative vs. the side effects of the anti-inflammatory medications I was taking previously. Since taking **NZYMES™** I've noticed; Reduced arthritis pain and more energy; I don't wake up with my knees aching or hurting; I walk, hike, do yoga, dance and swim again; I have NO DIFFICULTY rising-up after sitting awhile; I have less allergy symptoms and problems; I haven't had a COLD since I started with **NZYMES™**; I'm no longer considering knee surgery; Basically, I feel great!

Problems: Rheumatoid Arthritis, Pain

January 7, 2007: My **NZYMES®** story began a little over a year ago. My entire body had been hurting for three years, my doctor said I have "Rheumatoid Arthritis" and started me on prescription drugs (by the handful) to ease the pain. After about one year on the recommended medications, I also started taking arthritis pain killers that I seen and read about on TV, in magazines, and even the mail-order doctors. None of the pain products provided any relief.

February 2006: I was told about **NZYMES® Antioxidant Complex**. I decided to give them a try, so started taking them on Feb 22 2006.

By the end of the "cleansing period" (2 weeks of 5 caplets a day), I actually thought the pain was beginning to ease a little. After 3 weeks, I found it hard to believe, but I had "NO PAIN" at all except in my wrists, It took 3 additional months to get rid of that pain.

I have been totally free of pain since May, 2006. Before that, a 30 foot walk was all I could manage. At which point I would have to sit down and rest. Even the simplest housework was a task I couldn't do. Now, I have been regaining some of my strength and I am back to cooking and baking and even doing light housework. I have noticed I've slowed some but I'm blaming that on my age, I'm 85. **NZYMES®** and I will be friends from now on,

PS: My husband and I have also take and have had great success with **NZYMES® Ox-E-Drops** and now we are adding their NEW **NZYMES® Pro-B** probiotics to our daily regimen. THANKS!

Sylvia Hartman - Duncansville, PA

NOTE: It is common with Rheumatoid Arthritis cases for it to take many months (3-6 months) before the full effects of cleansing provide the desired relief. With these cases we suggest to double the regular daily amount used for cleansing beyond the first 2 weeks to 30-45 days. This should bring faster results.

Energy - Allergies - Immune system

I have been taking the powerful formula in **NZYMES™ Antioxidant Complex** now for more than 3 years and I must say that this great product

has made major improvements in my life.

The first thing I noticed was a boost in energy after just two weeks of use. Previously, I would tend to fade some in the late afternoon, but not anymore. About the same time I began to realize I was feeling much more awake in the mornings, not as sleepy-headed as usual, especially after a late night of partying.

After 3 months, I began noticing subtle improvements in the quality of my skin and hair. My friends were even making comments about the changes. Everything seems to be getting better and I must say that I honestly do feel younger. Even little things, like having stronger fingernails, are noticeable when you open boxes of paper all day.

The thing that probably impressed me most was how much less I feel my allergies and the normal day-to-day aches and pains. I'm sure my immune system has improved because I have gone through a couple of cold-seasons and haven't been sick even when I have been exposed to others with bad colds or flus. Overall, I feel the **NZYMES™** have been a great discovery, and I would recommend them to anyone for themselves and their family. Take it from me, "You'll feel the difference!"

Hip & Joint pain - Painful elbow
Muscle Injury and recovery

It was with great joy that I witnessed what **NZYMES™ Antioxidant Treats** did for our dear dog, Mewuk, so I was very pleased when they became available for humans.

I took **NZYMES™ Antioxidant Complex** every day, as directed, and, in less than a month, I noticed something very strange: I was feeling much fewer aches and pains, something I had just assumed was a natural part of life at age 55!

From my mid-thirties, I had always experienced joint pain, especially in my hips, probably from years of running on pavement. I guess I just assumed that was par for the course since my mother had had a hip replacement in her later years. "It was in the genes", I thought. When we moved to Tennessee, the pain increased with the high humidity.

Guess what! Those arthritic pains are gone! Using my right elbow had been particularly painful. I was amazed to discover, after taking **NZYMES™** for a while, that I could lift heavy items and move the elbow with no pain whatsoever. (And it's still humid!)

Just recently, I injured my calf muscles, tearing them harshly on a slide down the front steps. I could hardly walk from the bed to the bath, and was really distressed, thinking how long it would be before I could enjoy my outdoor walks again.

Well, I was absolutely astounded at how quickly those muscles recovered, noticing a major improvement virtually every day. I was back to my regular hour of walking in only a week. I Guess those **NZYMES™** really accelerate the healing process as well!

Many of my other aches and pains are disappearing, too. Some of them I hadn't even been aware of until I noticed their absence. How wonderful it is to get out of bed in the morning with no pain! I had forgotten the joy of feeling physically young. Thank you for introducing this exceptional product!
